Jail Management
System (JMS)

& Records Management
System (RMS)

May 1, 2012

Police Central today announced that it has partnered with EZ Card & Kiosk to begin offering Kiosk services to our jail clients. After a diligent process we've chosen EZ Card & Kiosk because they are the leaders in the industry. Kiosks often are used for only one service, perhaps commissary or phone calls. However, the EZ Card & Kiosk system integrates with all of the various departments. They currently handle 3 of the 10 largest jails in the country including Rikers Island.

EZ Card & Kiosk develops and maintains the Kiosks where citizens can make bail, probation or commissary payments 24 hours-a-day, 7 days-a-week using cash, coins, debit or credit cards. Individuals can also make payments by calling their bilingual toll-free US based call center where they are assisted by live customer support representatives or by going online to their user-friendly website.

All EZ Card & Kiosk services are provided to the agency at no cost, so there is no need for budgetary planning. There are no hardware, software or equipment upgrades to buy. EZ Card & Kiosk currently services more than 33,000 County Jail Inmates in multiple locations in 15 states and continues to demonstrate rapid expansion. Their kiosk services will benefit agencies in the following ways:

- ✓ Increases payments and generates additional revenue for the agency
- ✓ No more checks issued to inmates upon release; load funds on the EZ Card debit card
- ✓ Extra time for staff members to perform other duties which saves the jail money
- ✓ Provides citizens and family members with a fast, easy and secure payment option
- ✓ Cash bail services alleviate overcrowded jails, administrative burdens and operational costs
- ✓ EZ Card & Kiosk services reduce cash stored at jail facilities

Bruce Taylor, Police Central's President and Chief Operating Officer, said "We are delighted to partner with EZ Card & Kiosk to bring kiosk services to our growing list of law enforcement and corrections departments across the country."

Further information about EZ Card & Kiosk is available at www.ezcardandkiosk.com.

NO COST, NO COMMITMENT...NO PROBLEM

Keeping up with technology is expensive and time consuming. EZ Card & Kiosk offers Kiosks for Booking, Lobby, Probation, Commissary and for any other purpose our clients require. ALL AT NO COST. Supply electricity and high speed internet service and your work is done.

EZ Card & Kiosk processed over \$27 Million dollars for inmates in 2011.

WE DO IT ALL ... EASY AS A,B,C,D

A EZ Card & Kiosk will design a Kiosk for you a-la-carte. You can have all of our services or just one. We will provide all the hardware, software and materials needed to operate the kiosk. We'll even have someone come out to maintain it.

B When the system is up and running you can see payments on your real-time operational screens.

C Once agreements are signed and your programming is completed a training is done for your staff on site or over a webinar. Our support staff is here for you 24 hours a day 7 days a week.

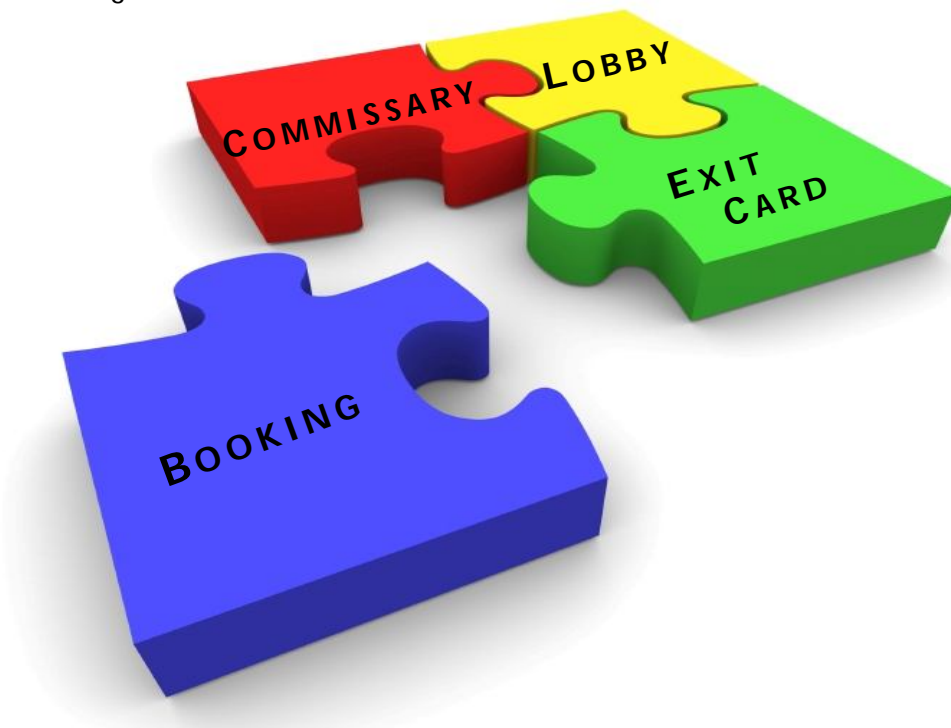

D Funds are directed to the inmates trust accounts and applied automatically.

KIOSK, INTERNET AND CALL CENTER SERVICES

OVER \$27 MILLION PROCESSED IN 2011

WE PUT THE PUZZLE TOGETHER FOR YOU

Facilities are often faced with multiple providers. Our system ties them all together in one package so inmates and their loved ones can make payments, pay bail or add to commissary accounts through one vendor.

SOME OF THE FACILITIES WE ARE PROUD PARTNERS WITH

Broward County, Florida
Detention Center

Rikers Island, New York
Correctional Facility

Clark County, Nevada
Detention Center

ABOUT EZ CARD & KIOSK

EZ Card & Kiosk, has been providing kiosk and internet payment services, as well as inmate release debit card products as a full-suite solution for the creation and management of "Cashless Jail Technology" since 2008.

Via its proprietary software, teamed with customized kiosk hardware and online website services, EZ Card & Kiosk

provides a "cashless" solution to the jail market for the Booking process, collecting and depositing cash and credit card Money Load funds into the inmate's trust account, accepting and handling the funds related to the Bail process, and then refunding the inmate's trust account balance at the time of their release by issuing a Debit Card.

FAQ's

Q) What's the cost to the City/County/Facility?

A) Because we charge the end user a service fee, we are able to offer this at no cost to the City, County or Facility.

Q) How do you save us time?

A) Our service has reduced foot traffic in jails by as much as 60%. As well, no longer will officers have to count and recount inmates funds. This can all be left to the kiosk.

Q) How many facilities are you in now?

A) We are the leader in providing kiosks to Jails, Correctional Facilities and Detention Centers with 64 facilities including 2 of the 5 largest jails in the country.

Q) Who maintains the kiosk?

A) All you supply is electric current and internet access. We maintain the kiosk as well as the collection of funds and supplying you the debit cards for exiting inmates.

Q) How else can individuals make payments.

A) Individuals can make payments directly at the kiosk, over our US based call center 800#, or over the internet at our user friendly website.
